

Vermont HOUSSE¹ for “Experienced” Educators

Teachers providing K-12 instruction in core academic areas, as defined by the federal No Child Left Behind Act of 2001 (NCLB), must meet Highly Qualified Teacher (HQT) licensure and content knowledge requirements pertaining to their assignment. NCLB defines core academic areas as: English language arts (including ESL), math, science, social studies, reading, foreign languages, art, music, and the generalist endorsement areas of elementary education and early childhood education (grades K-3 only).

This chart describes the HQT licensure and content knowledge requirements for "regular" classroom teachers of core academic areas who meet one of two conditions:

- Became licensed in Vermont and acquired the endorsement being reviewed prior to July 1, 2006 AND have 12 or more months of professional experience as an educator, OR
- Endorsement being reviewed was issued as a “Level II” by the Licensing Office under the terms of the NASDTEC interstate reciprocity agreement.

“Regular” classroom teachers who hold core academic area endorsements issued on or after July 1, 2006 must meet the HQT content knowledge requirements specified in the chart, *HQT Licensure & Content Knowledge Requirements for Classroom Teacher Assignments* found at education.vermont.gov under Educator Licensing. Special educators, Title I reading and Title I math teachers, and alternative program educators should use the HQT licensure and content knowledge requirements chart appropriate to their assignment (see the "Appropriate HQT Requirements for Assignment" table at the end of this document).

To be HQT for his/her assignment, an educator must carry an endorsement appropriate to the assignment AND must meet the corresponding HQT content knowledge requirements for the endorsement used in the assignment. **The instructional levels of the endorsement used must encompass the grade(s) taught in order to be appropriate for the assignment.**

When counting credits, both college coursework and professional development in the academic content area may be counted toward HQT requirements. For a college course to be counted, a grade of "C-" or higher must be earned. 15 hours of professional development are considered to be the equivalent of one credit. Up to three credits or equivalent credits in content area pedagogy may be counted toward the minimum HQT credit requirements for classroom teachers. HQT determinations are valid for the life of the endorsement.

More information about HQT and Vermont’s Praxis II testing requirements is available online at education.vermont.gov under Educator Licensing. For questions regarding HQT, contact the Office of Professional Standards at (802) 828-1455 or DOE-HQT@state.vt.us.
